

REVIEW

Author: Krunal R Trivedi, M.Sc.

Thesis: Crystallization of polyolefin blends and nanocomposites

Reviewer: Assoc. Prof. Petr Svoboda, Ph.D.

By successful publishing of his work in peer reviewed journals (Materials Chemistry and Physics, Polymer Testing and Macromolecular Research) Krunal proved the ability to plan and perform experiments, evaluate results and write papers about it.

Thesis is written on high scientific level and therefore I recommend it for the final defense.
