

REVIEW

Author: Rajesh Theravalappil, M.Sc.

Thesis: Polyolefin Elastomers: A Study on Crosslinking, Blends and Composites

Reviewer: Assoc. Prof. Petr Svoboda, Ph.D.

By successful publishing of his work in peer reviewed journals (Polymer Testing, Macromolecular Materials and Engineering, Polymer Engineering and Science) Rajesh proved the ability to plan and perform experiments, evaluate results and write papers about it.

Thesis is written on high scientific level and therefore I recommend it for the final defense.
