

SUPERVISOR RECOMMENDATION

ING. TOMÁŠ PLACHÝ

Tomáš Plachý is a full-time student in the Ph.D. programme "Technology of Macromolecular Compounds" at the Faculty of Technology in Zlin, Czech Republic since September 2012.

Tomas is involved in development of new materials suitable for preparation of novel electrorheological fluids based on conducting polymers and oligomer analogues.

He already published his results in original papers in scientific journals with high impact factor and also presented his results on conferences. According to Web of Science database Tomas is co-author of 9 papers having 44 citations (excluding self-citations) with h-index of 4. He was involved in research supported by Czech Science Foundation, Technological Agency of the Czech Republic and also by internal student projects of Tomas Bata University in Zlin.

During his Ph.D. study he spent all together 8 months at University of Aveiro, Portugal, Norwegian University of Science and Technology, Norway and University of Nice Sophia Antipolis (France).

Tomas is a smart, hardworking personality with experience in independent scientific work.
