

Ph.D. Student Evaluation – MSc. Haijun Xiao

MSc. Haijun Xiao started his PhD study at the Centre of Polymer Systems, Tomas Bata University in Zlín in September 2016. Since then he has done a great job in the area of development and characterization of drug delivery nanosystems. The results related to his PhD studies were published in 2 highly reputed scientific journal and another manuscript will be submitted soon. Furthermore, he is co-author of international patent application that is in the final stage of its assessment at World Intellectual Property Organization. Another patent application will be submitted at the beginning of 2021.

Haijun Xiao has proven his presentation skills by 3 conference contributions. His professional competences were improved through mobility stays at the universities in USA (University of California, 3 months) and China (Chengdu University of Traditional Chinese Medicine, 3 months).

Beside his regular duties connected with the PhD study, Haijun Xiao has actively participated in research projects founded by Czech Science Foundation and Internal Grant agency of the Tomas Bata University in Zlín.

The thesis submitted by Haijun Xiao fulfils all standards given by internal regulations of the Tomas Bata University in Zlín. Plagiarism checking done by the Theses system showed negative response – the thesis is an authentic work.

Haijun Xiao has become an independent researcher with a good potential for further work in R&D.

On the basis of this, I fully recommend Haijun Xiao for the award of the PhD degree.

prof. Ing. Vladimír Sedlařík, Ph.D.
